There is no assurance provided that the financial concepts and strategies discussed will provide investment success.

Compak Asset Management offers investment advice only after entering into an investment advisory agreement and gathering client-specific information about goals, objectives, financial status, and risk tolerance. Investments are subject to market fluctuations, risks and potential loss. Actual results depend on many factors as discussed in the seminar.

We make no assurance that past performance or the use of technical analysis will accurately predict future prices. Further, a risk of technical analysis is that over-focus on historical patterns could lead to ignoring or down-playing security-specific concerns, overall market or sector concerns, or other factors, because we assume inaccurately the historical patterns will repeat themselves. In no event is past performance a guarantee of future performance.
